Controls

- Attacks: **Default controls use WASD**, so be sure to change adapt it to your keyboard settings.
- Press the Rope Button to create a rope while close enough to an attachable object to traverse dangerous terrain.
- Use your shield (Airdodge in air) to avoid getting hit by the charge shot and other projectiles!
- Additional characters abilities like laser, bomb, phantasm or teleport are also unlockable after reaching the required XP level.
These techniques add a new dimension to the game and provide new ways to complete all levels in a shorter time.

Great game! I saw this recommended on r/vssbm and it truly is a great speedrunning platformer. It looks like you can use in-game points to "buy" replays of top scores and things, so I suppose if you're totally stuck you can always check out what others have done (I have not used this feature, yet). Excellent way to spend arbitrary amounts of time in small increments.
